

# Analysis of Citi Bike Data

# Objective:-

- ▶ The objective of this Project is to aggregate the data found in the Citi Bike Trip History Logs to build a data dashboard, story, or report. To find the answers related to rider, riding, bike, and Destination etc.

# Problem Statement:-

Since 2013, the Citi Bike Program has implemented a robust infrastructure for collecting data on the program's utilization. Through the team's efforts, each month bike data is collected, organized, and made public on the [Citi Bike Data](#) webpage.

However, while the data has been regularly updated, the team has yet to implement a dashboard or sophisticated reporting process. City officials have a number of questions on the program.

# Data Description:-

(This data file contains only September month data.)

- Trip Duration (seconds)
- Start Time
- Stop Time
- Start Station ID
- Start Station Name
- End Station ID
- End Station Name
- End Station Latitude
- End Station Longitude
- Bike ID
- User Type (Customer = 24-hour pass or 3-day pass user; Subscriber = Annual Member)
- Birth Year

- 
- Gender (F = Female, M = Male)
  - Age(Year)
  - Year(September 2019 & 2020)

# Data Insertion, Preprocessing, clustering and modeling

- ▶ The csv file of the data has been inserted in Tableau.
- ▶ Created the Bottom N and Top N parameter.
- ▶ Created Bin for the Age.
- ▶ Clustered the some columns and created set in tableau.

# ANALYSING THE REPORTS & DASHBOARDS

## Pivot Table

Year

2019

2020

Year	Count of Tripduration	Avg. Tripduration	Tripduration	Avg. Age
2019	49,216	811	39,926,046	37
2020	53,833	1,576	84,829,288	38

## Key Insight

- In 2019 Count of Trip duration, average Trip duration and total Trip duration is less compared to 2020.
- Total Trip duration is 11090.57 Hours in 2019 and 23563.69 Hours in 2020.

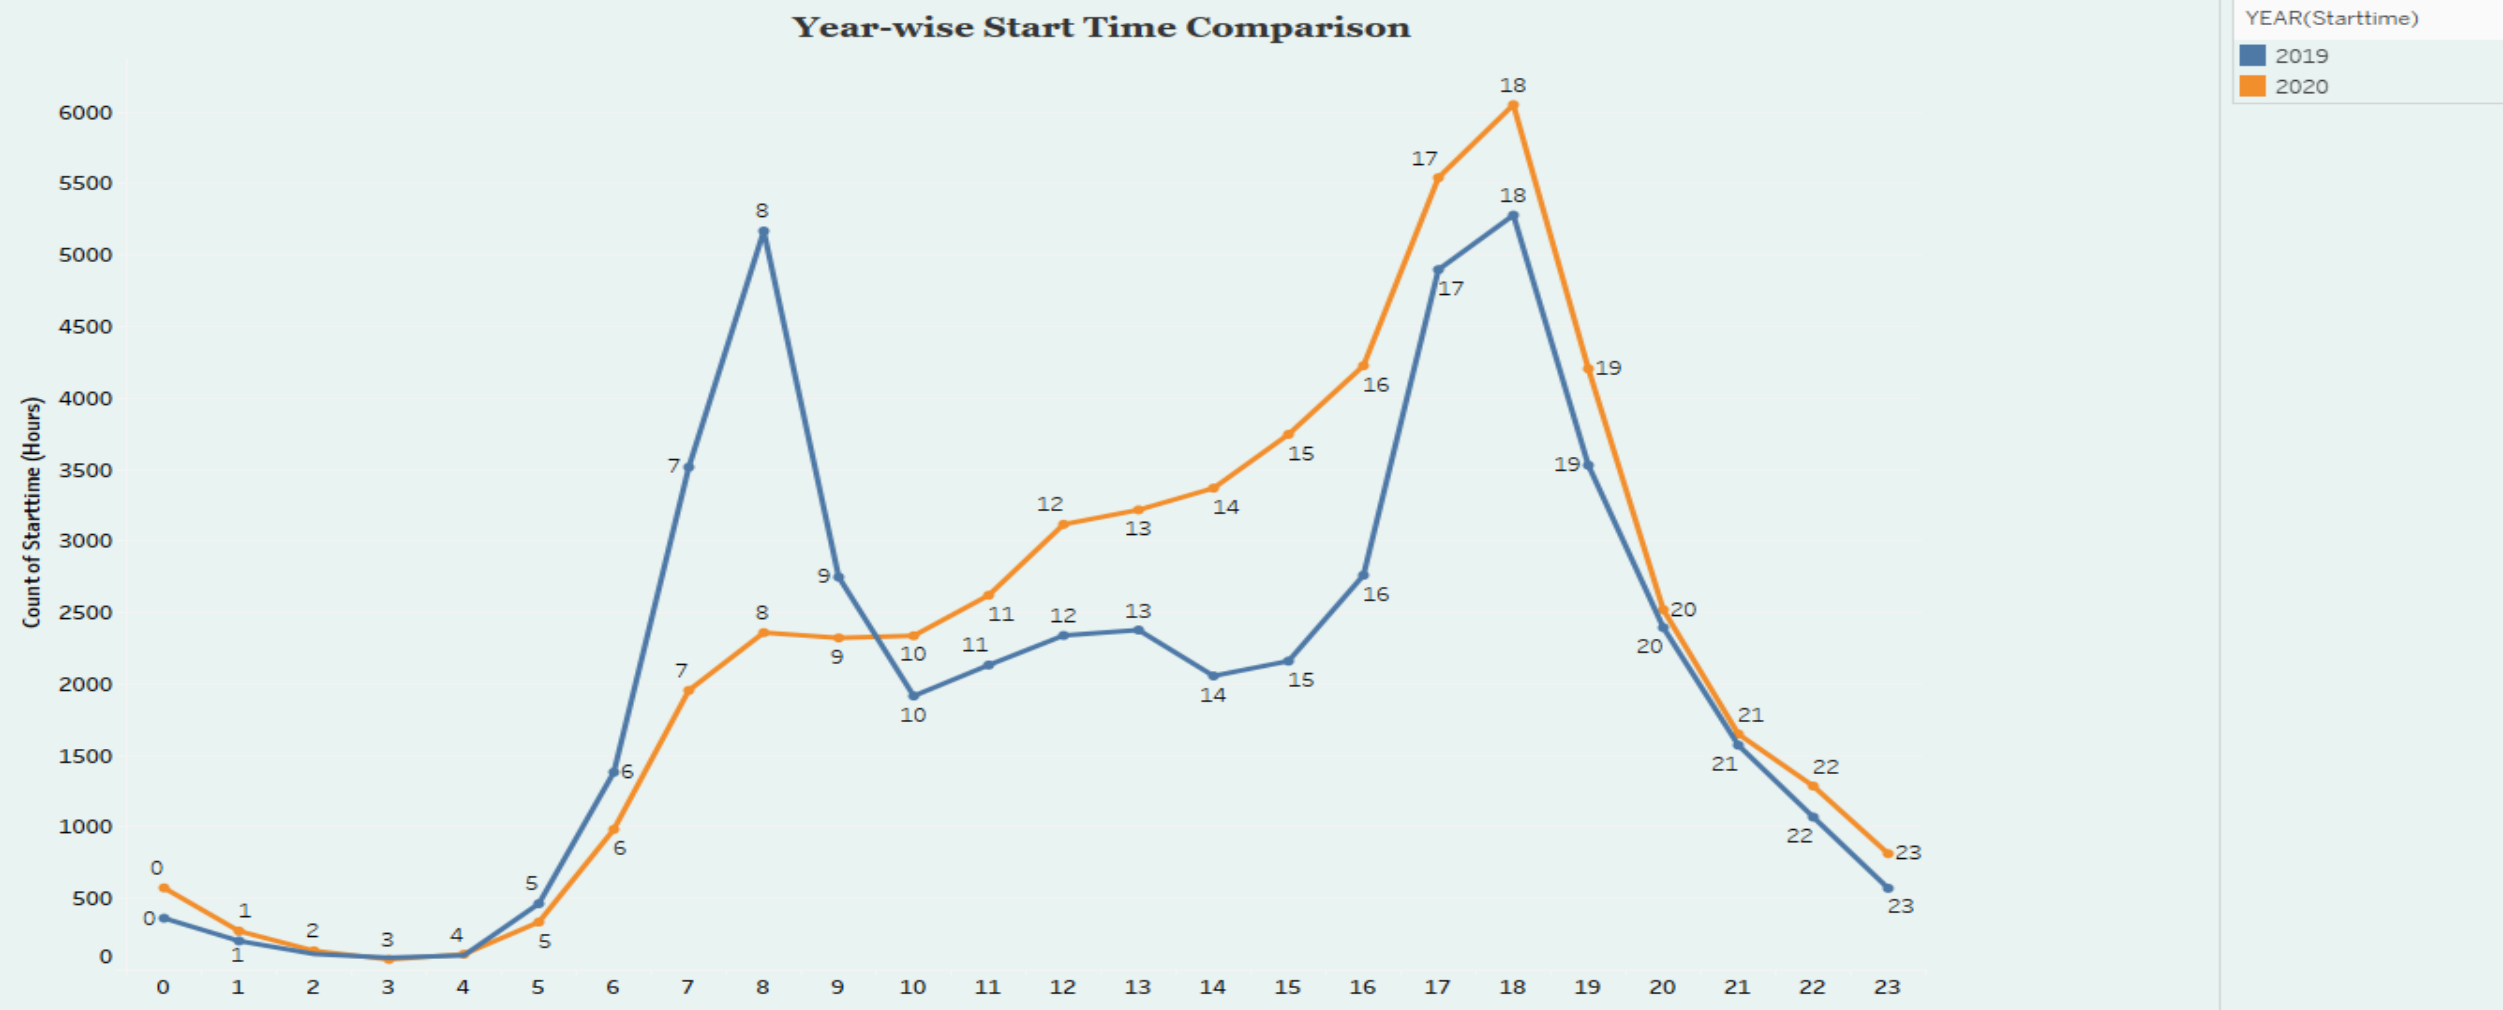

Categories					Gender	
Year	Usertype	Gender	Count of Tripduration	Avg. Tripduration	Tripduration	Avg. Age
2019	Customer	F	1,611	2,788	4,491,271	30
		M	3,004	1,515	4,549,781	31
		Not Available	2,773	2,639	7,316,923	50
	Subscriber	F	10,438	550	5,739,154	36
		M	30,408	572	17,396,753	38
		Not Available	982	440	432,164	43
2020	Customer	F	4,031	4,127	16,636,771	30
		M	6,185	1,858	11,489,458	30
		Not Available	8,333	2,970	24,745,235	51
	Subscriber	F	9,842	858	8,441,323	36
		M	24,882	925	23,006,456	38
		Not Available	560	911	510,045	43

From the table-

- Customer whose gender is unknown their total Trip duration and average age is higher than the male and female.
- Male and Female Subscriber have taken maximum number of rides than the customer in both years.
- Total Trip duration of Male and Female subscribers is more than the Customer in 2019 but in 2020 female's customers total trip duration is higher than the subscriber.
- Average age of the unknown gender is higher than the male and female customers and subscribers.

Nearly 27 and 50 old years riders have taken maximum number of rides.

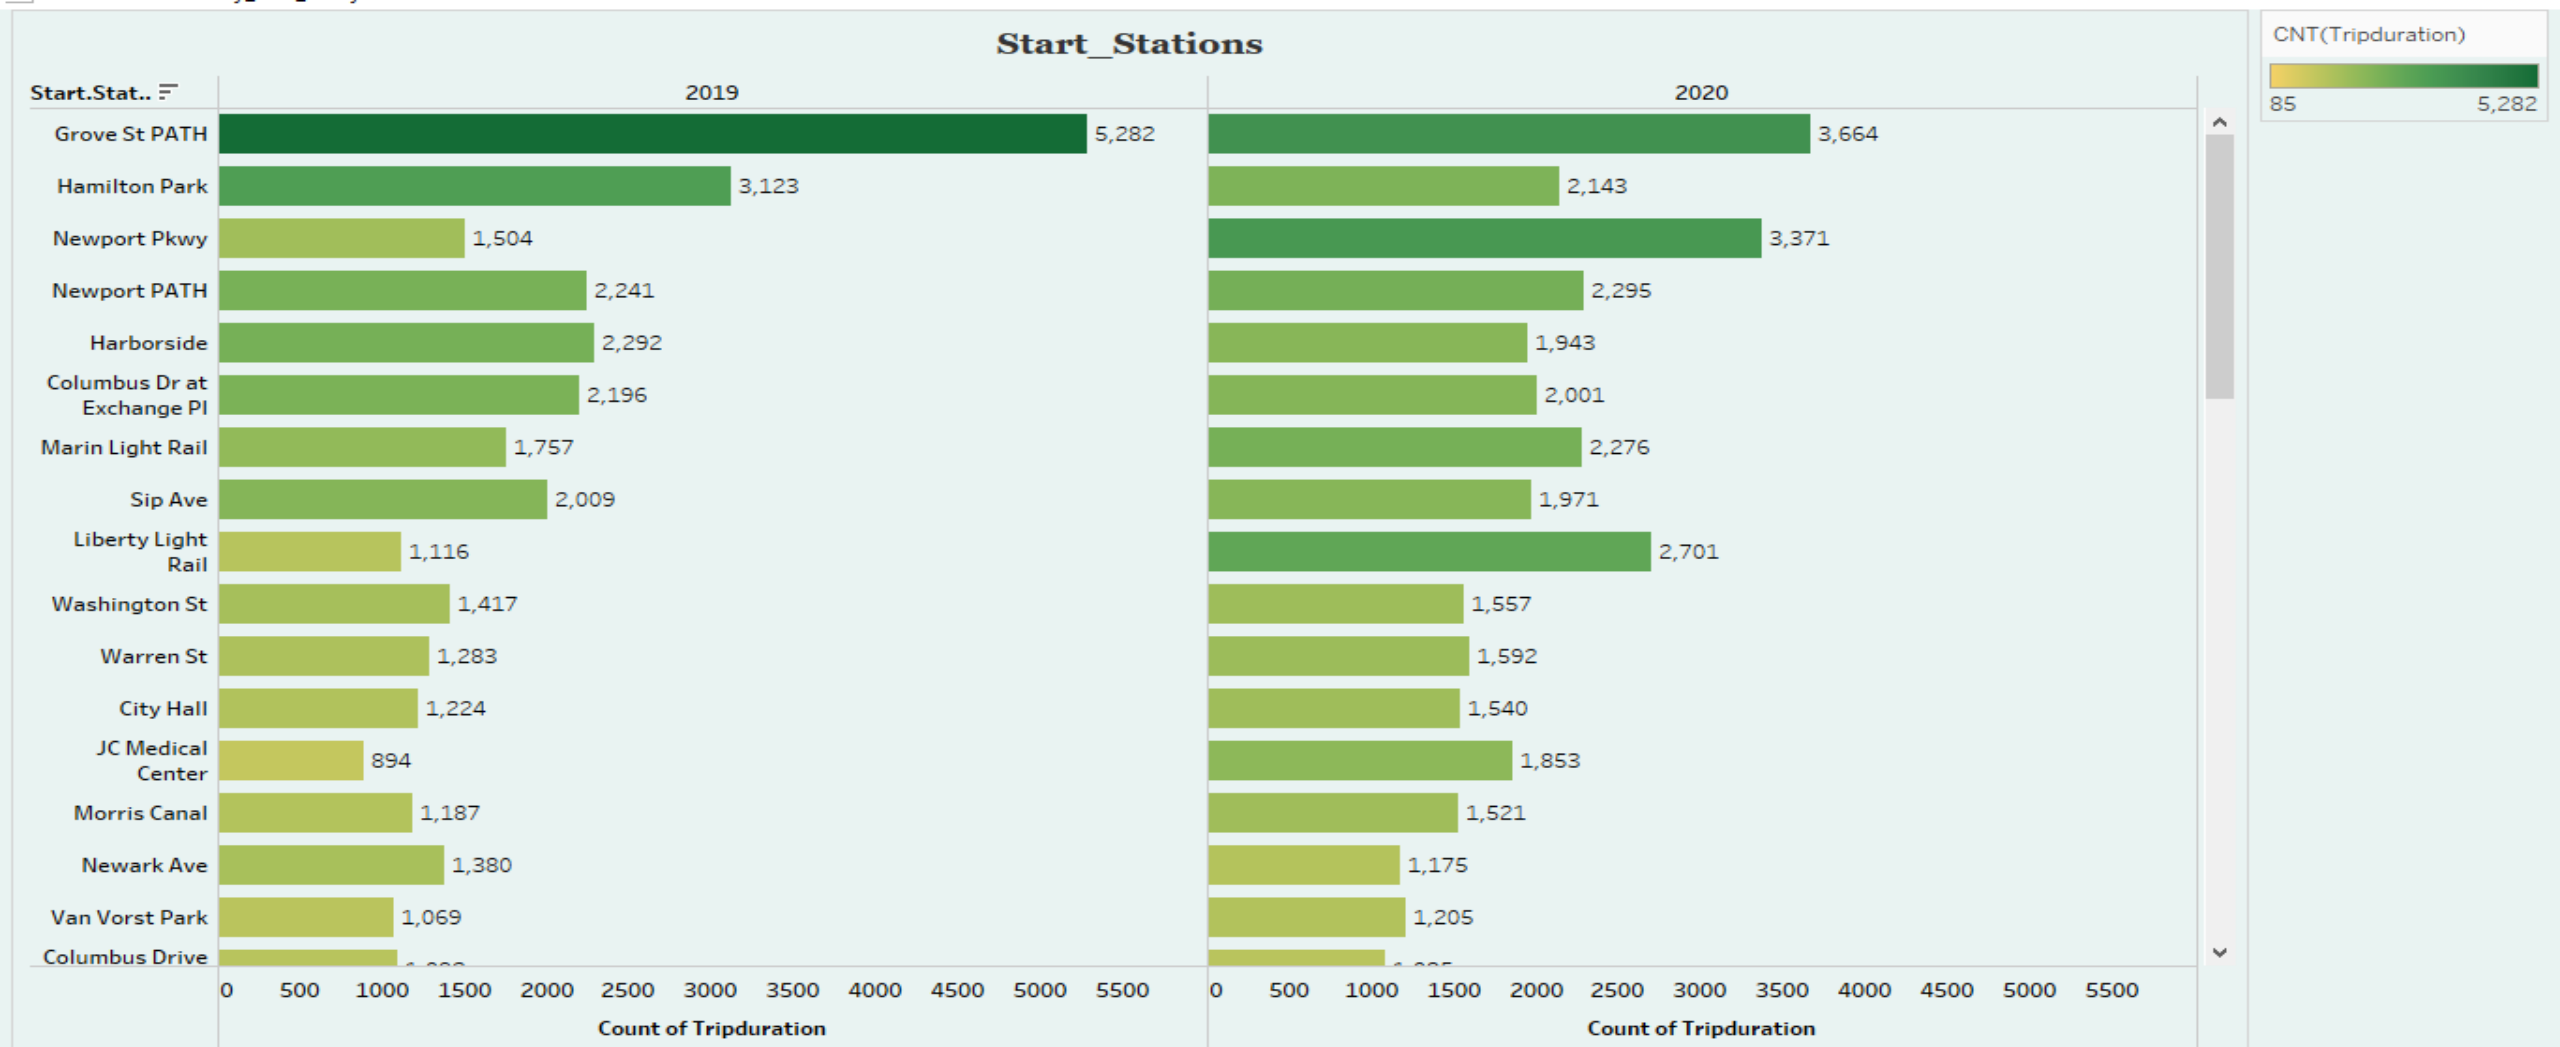

- At 8 am and 6 pm is the peak hour when the maximum number of people started their ride.
- At 8 am in 2019 people started their ride much more than the 2020

### Year-wise Stop Time Comparison

- At 8 am and 6 pm is the peak hour when the maximum number of people ended their ride.
- At 8 am in 2019 people ended their ride much more than the 2020.

Grove St PATH is the top Start Station from where people started their ride.

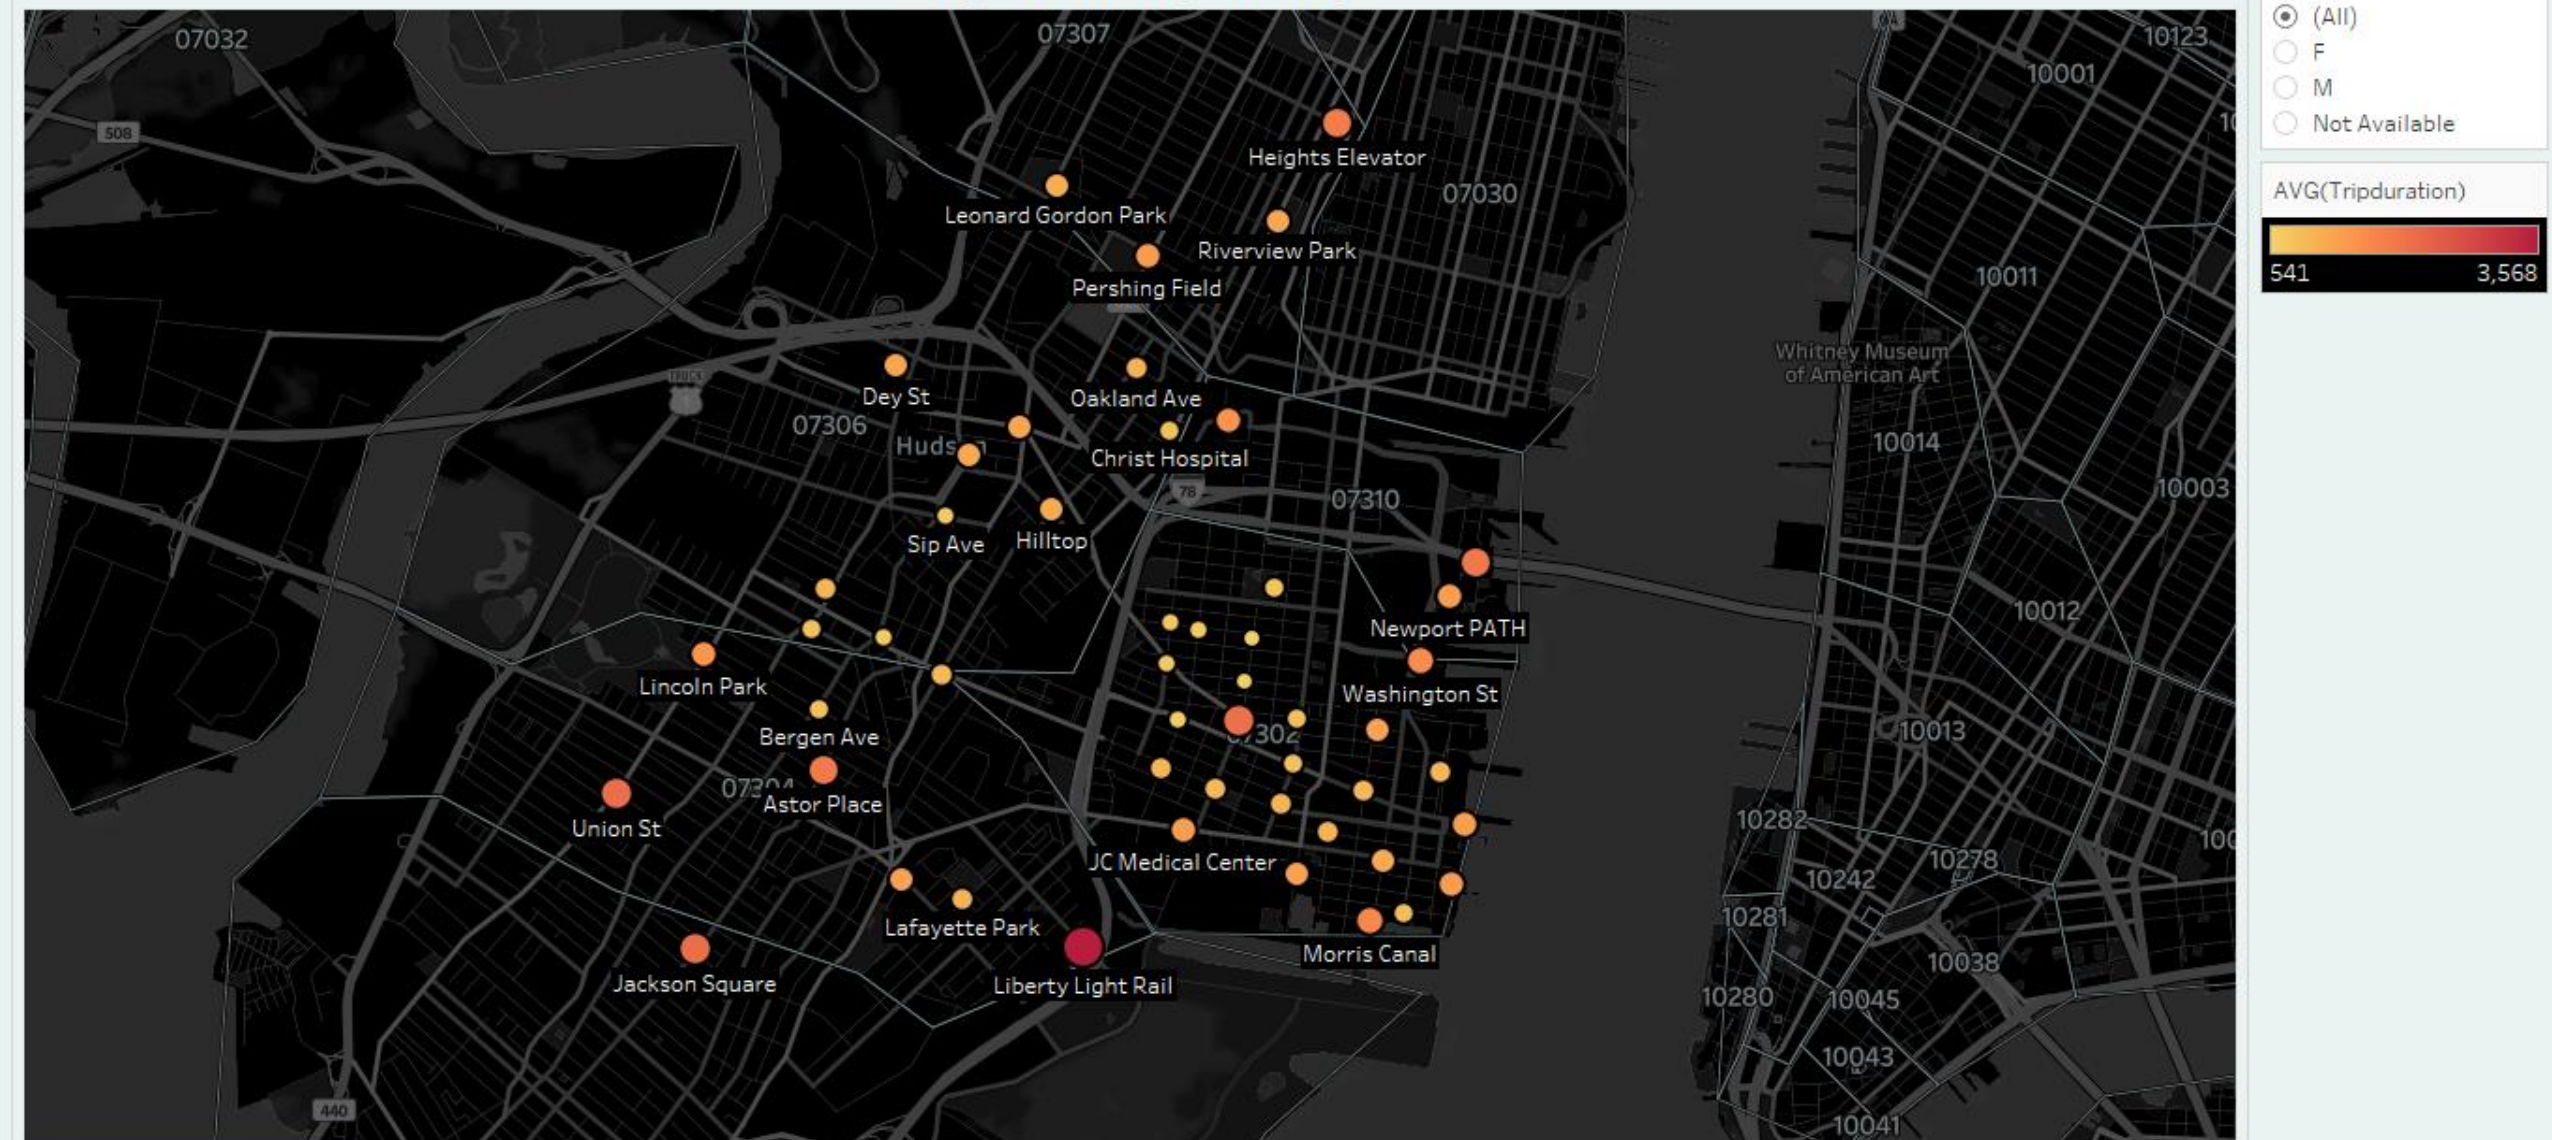

## End\_Stations

CNT(Tripduration)

Grove St PATH is the top End Station from where people Ended their ride.

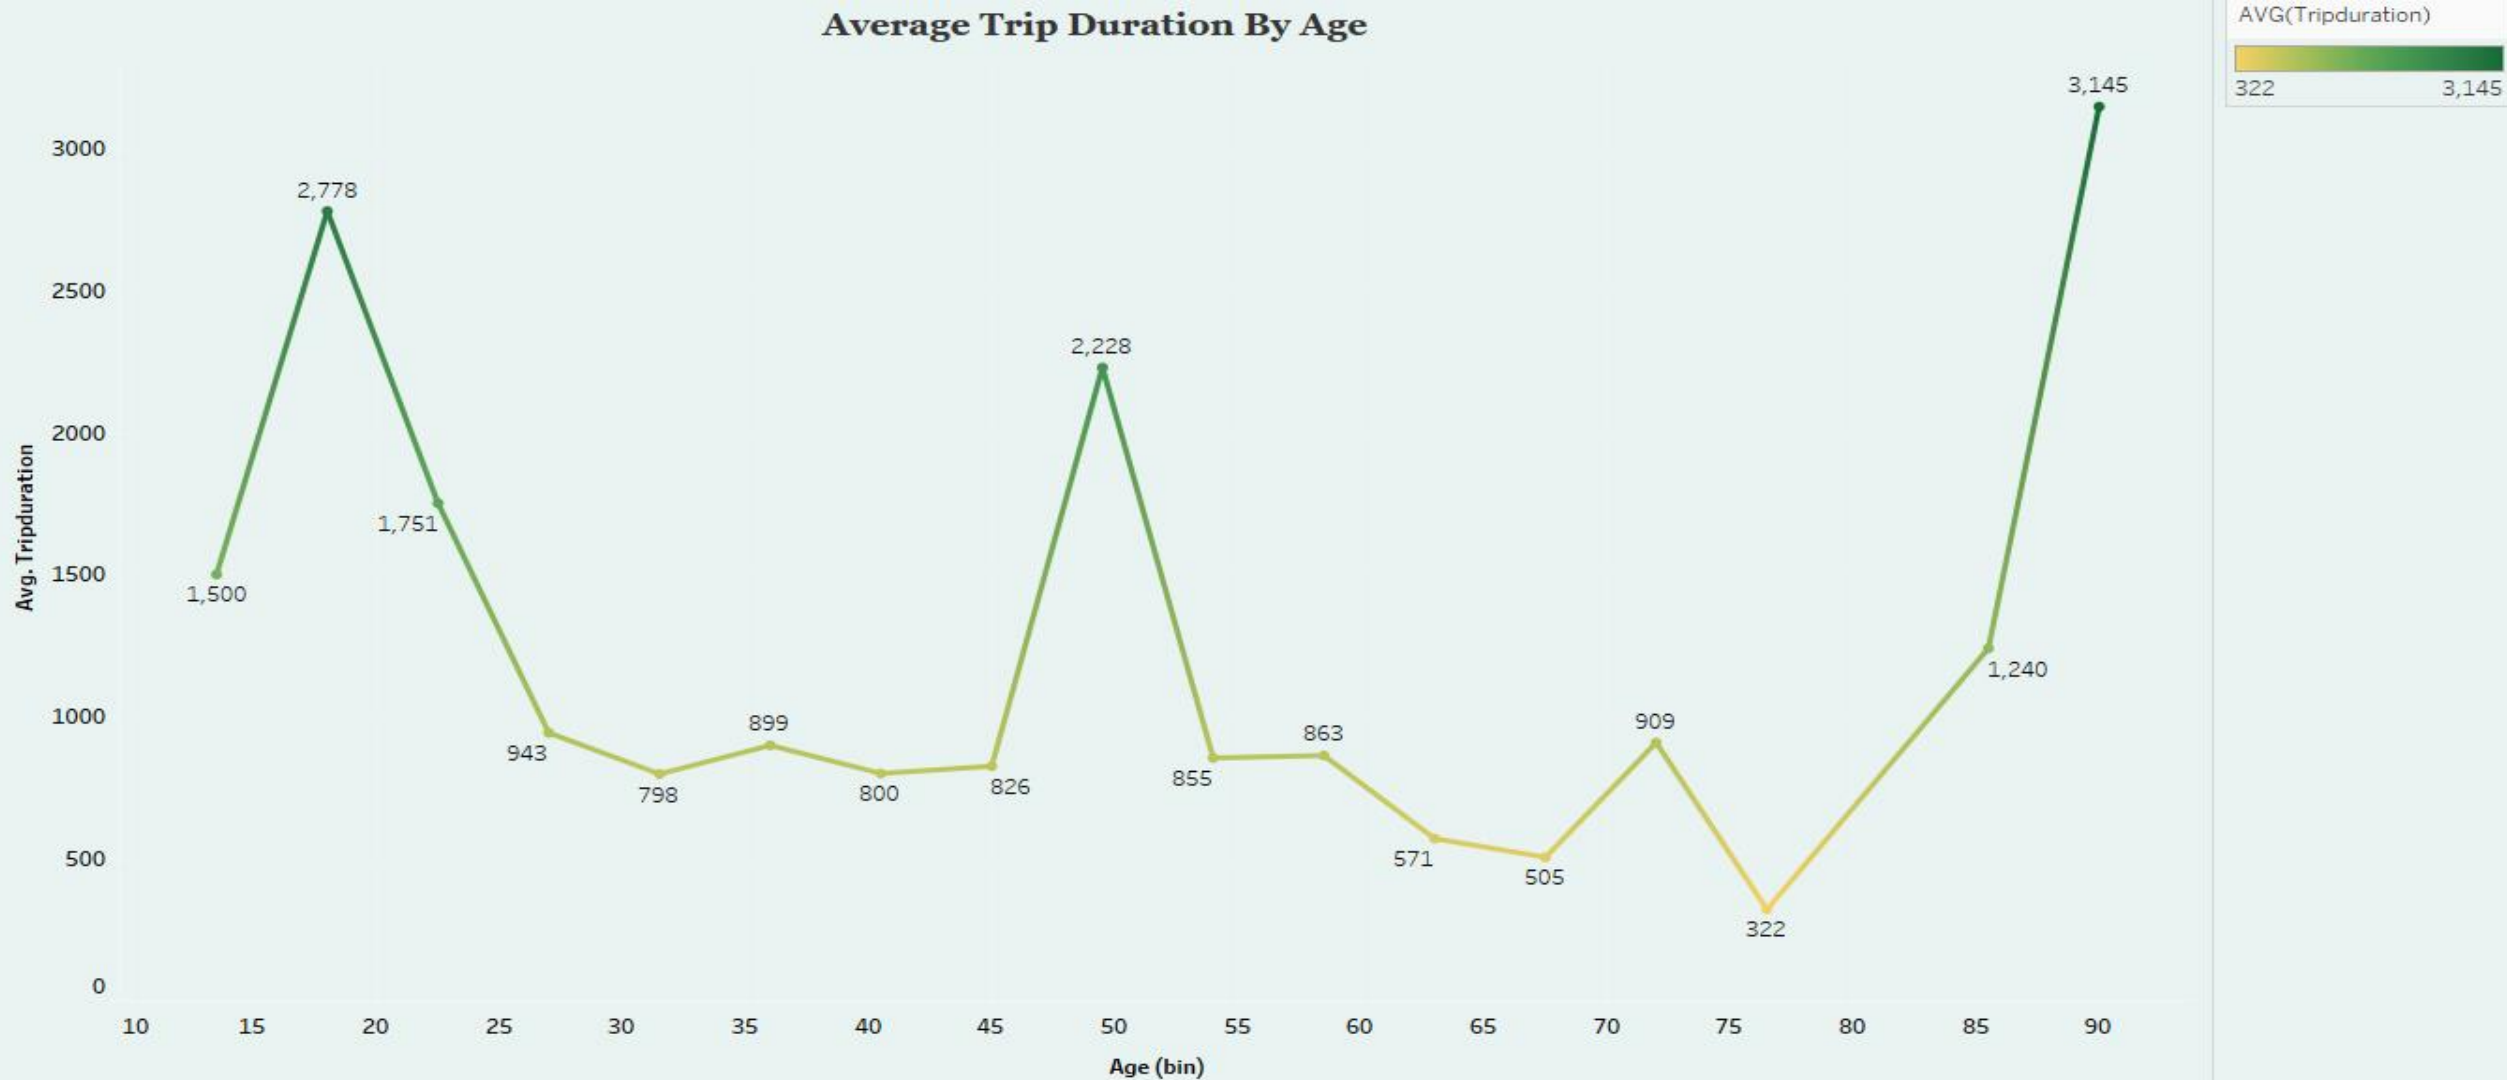

## Map Of Starting Journey

Liberty light Rail followed by Union St and Jackson Square are the starting stations from where average trip duration is maximum.

**Average Trip Duration By Age**

90 followed by 18 and 50 years old riders average trip duration is higher compared to other ages.

Gender Breakdown of Active Participants
